

Commercial LED Display Installation

Customer-supplied equipment. Project-specific installation.

INSTALLATION SUPPORT ACROSS NYC

For retail contractors, store owners, designers and display suppliers planning LED walls or commercial screens.

Mounting

Install the customer-supplied display and agreed mounting system, based on equipment and site requirements.

Electrical power

Install the agreed electrical work and coordinate power needs with the supplied display specifications.

Cabling

Install agreed cabling and coordinate cable routes, access and connection locations with the project team.

PROJECT EXPERIENCE

Hudson Yards retail display

3-DAY INSTALLATION

Mounting / Power / Cabling

How we start

- 01 Review the site.** Equipment, mounting, power, cabling and access.
- 02 Define the scope.** A project-specific installation proposal.
- 03 Coordinate the work.** Delivery, site readiness and installation timing.

Send with your bid request

- Display make, model, dimensions and quantity
- Plans, site photos and mounting hardware
- Power requirements and cable routes
- Site address, access and work-hour limits
- Equipment delivery and target install date
